ICP-RM2 2RU 2in1 Rack Systems

Purpose built 2in1 2RUsystems for multi-media based platforms reduces the RU space requirements with a rack cabinet. Two independent systems within a 2RU chassis incorporating features:

- Supporting Intel i3, i5 & i7 CPU
- Optional onboard Displayport, HDMI, DVI or VGA up to 4K resolutions
- Single to multi-LAN ports
- Optional Hot swappable SSD, SATA or SAS storage with integrated RAID 0, 1, 5 option
- Multi-media functionality including audio & mic option
- Individual single power supplies, one low profile rear slot
- Short depth systems starting at 450mm
- Available operating systems covering Win7, Win10, Linux and VMWare

Please contact ICP Global for your preferred 1RU system configuration.
